

The Center for Minimally Invasive Surgery &
Comprehensive Esophageal Health Center at
The Ohio State University Wexner Medical Center present:

Innovations in Reflux Management: Dietary, Medical, & Surgical Strategies for Gastroesophageal Reflux Disease

Saturday, Dec. 9 | 8:00 a.m. to 2:00 p.m.
Biomedical Research Tower at The Ohio State University

REGISTER TODAY

CME credits offered | Virtual Option Available

Our half-day course will provide insight to the best practices for care of reflux patients. Presentations will have a focus on GERD epidemiology, testing, and surgical & non-surgical treatments, as well as Barrett's Esophagus classification and treatment.

The Ohio State Wexner Medical Center course directors:

Kyle Perry, MD, professor of Surgery in the Ohio State College of Medicine, Division of General and Gastrointestinal Surgery

Megan Chan, MD, assistant professor of Internal Medicine in the Ohio State College of Medicine, Division of Gastroenterology, Hepatology, and Nutrition

For more information, contact: Kaitlyn Mooney, 614-293-9072, kaitlyn.mooney@osumc.edu
