For the Week of August 26, 2013

Biomedical Sciences News and Events

Attention: Temporary Office Move to 2nd floor of Graves Hall

Beginning Thursday, August 22 the Biomedical Sciences Graduate Program offices have been temporarily moved to the 2nd floor of Graves Hall. Kelli Kaiser is now located in Graves 2018 and Amy Lahmers is in Graves 2016. The anticipated time for the renovation project in Graves 1170 is 3 weeks.

Christopher Jones Dissertation Defense: 8/30/13 @ 9:00 am, BRT 105

It is our pleasure to announce that doctoral candidate, Christopher Jones, is defending his dissertation. Please see below for details regarding his public defense if you wish to attend. You can find his booklet here.

Christopher Jones
PhD Candidate
Advisor: Dr. Dr. Daniel Wozniak

"AmrZ is a Central Regulator of Biofilm Formation in Pseudomonas aeruginosa"
Other News and Events

**Research Opportunity at NIH for Science Students**

The National Institute of Allergy and Infectious Diseases (NIAID), one of the largest Institutes at the National Institutes of Health (NIH), is looking for science students with a passion to improve global health in the 21st century for its Intramural NIAID Research Opportunities (INRO) program, held February 3-6, 2014, in Bethesda, Maryland. Selected INRO students visit NIAID to learn about the breadth of research we do in the areas of allergy, immunology, and infectious diseases from world-renowned scientists and interview for potential research training positions. Read more here or see the program flyer here.

**Pelotonia Fellowship Symposium Showcases Progress**

Ohio State's 2013 Pelotonia Fellowship Symposium will take place Sept. 11 from 8:30 a.m.-4:30 p.m. in 115 Biomedical Research Tower. This scientific symposium will feature the work of several 2011-2012 undergraduate, graduate and postdoctoral fellows whose projects were supported by funds raised through Pelotonia. In addition, the symposium will feature nationally renowned keynote speakers. More information and registration are available online.

**Research Opportunity at NIH for Science Students**

Association for Women in Science - Central Ohio Chapter (AWISCO) has exciting new OSU Scholars Seminar Series starting up. The first seminar is on September 6th followed by ice-cream social. The speaker is an eminent chemistry professor, Dr. Heather Allen. She is an AAAS fellow and has been recognized for several mentoring awards over the years including the most recent in 2013, the American Chemical Society National Award for Encouraging Women into Careers in the Chemical Sciences.

There is also an ice-cream social, followed by the seminar, to provide an interdisciplinary networking platform for undergraduate and graduate students, postdocs, scientists and faculty. Also, they have discounted (50%) student membership until september 30th to encourage their membership and representation in all STEMM disciplines. In the ice-cream social, they will have more information about their different committees, officers positions available, and the chapter's current and near future work.

Please find the attached flyers for the seminar and the ice cream social.

**Fun Fact**
First televised Major League baseball game: August 26, 1939

On this day in 1939, the first televised Major League baseball game is broadcast on station W2XBS, the station that was to become WNBC-TV. Announcer Red Barber called the game between the Cincinnati Reds and the Brooklyn Dodgers at Ebbets Field in Brooklyn, New York. Read more here.
