For the Week of February 22, 2015

Graduate School News

Catherine Powell, PhD Candidate - Dissertation Defense
It is our pleasure to announce that doctoral candidate, Catherine Powell, is defending her dissertation. Please see her booklet at: http://medicine.osu.edu/bsgp/Pages/calendar.aspx?event= for details regarding her public defense if you wish to attend.

Thursday, February 25
105 BRT
2:30pm

Christian Harding, PhD Candidate - Dissertation Defense - Delayed
Christian Harding's defense has been delayed. Once this event has been rescheduled a announcement will be sent out.
Congratulations to Julia Behnfeldt

Reminder: Dissertation Meeting Minutes Due Once/Year

Over the last few months we have been sending reminders about the policy regarding Dissertational Minutes. After the first year, students should complete the "Dissertation Committee Minutes Form" with their dissertation advisor only if they have not chosen their committee. All students complete the "Dissertation Committee Minutes Form" by the end of the Spring semester months will receive a "U", or Unsatisfactory, in IBGP 8999. After 4 years, the Dissertational Committee must meet every 6 months with forms due at the end of each semester. The form can be found under "Student Handbook and Forms" on the Current Students tab.

Deadlines

Deadlines
Committee approval of master's and Ph.D. exam report forms due-April 17
Final approved theses/dissertations due-April 24

Events

Commencement-May 10

Peletonia Tax Information Session

What-Peletonia Tax Information Session
When-Thursday, February 19th from 2-3pm
Where-Room 105 Biomedical Research Tower (BRT)

Graduate Student Financial Services

Scarlet & Gray Financial Services for Graduate Students

Scarlet & Gray Financial is a nationally recognized peer financial coaching program housed in the Student Wellness Center in the RPAC. Scarlet & Gray Financial offers one-on-one financial coaching sessions, presentations, and an online module—all free and intentionally created for graduate and professional students. This month's featured online module is "Financing Higher Education."

Financial Information Site GradSense Redesigned
GradSense is a web-based service that helps graduate and undergraduate students make financial decisions. GradSense has been recently updated and featured content includes student debt calculators, job growth reports, information on how to transition financially out of graduate school, etc. GradSense supports the Council of Graduate School’s Enhancing Student Financial Education Best Practices project in collaboration with TIAA-CREF.

Updated Family and Medical Leave Policy Adds Student Employees

Ohio State, including the Wexner Medical Center, provides Family and Medical Leave (FML) to eligible faculty and staff for up to 12 work weeks of annual leave based on qualifying events. On Feb. 1, changes to FML will take effect. Changes include adding student employees, altering eligibility, and modifying immediate family-member definitions. These changes affect only those with 60% or greater FTE appointments.

Note: Family and Medical Leave is different than the Graduate School's Medical/Family Leave of Absence, which is a type of funded graduate student leave.

For the GradSense Updates, contact
For the university’s Family Medical Leave Policy changes, contact the Office of Human Resources

Upcoming Events

MVIMG Research In Progress Seminar series

We have three slots left in our MVIMG Research In Progress Seminar series (2/23, 3/2). This is a fantastic opportunity to share your exciting research and for graduate and postdoctoral trainees to gain valuable presentation skills. If you are interested in presenting, please contact me (en-ju.lin@osumc.edu) with your preferred date.

Doctoral Directions: 2015 Learning to Lead in Biomedicine

We are excited to invite trainees across the nation to attend our annual Doctoral Directions hosted jointly by the University of Pittsburgh Women in Science and Medicine Association and Biomedical Graduate School Association. This unique conference is designed and directed by students in an effort to provide graduate level trainees with tangible skills they can immediately practice and incorporate into their overall professional development! Doctoral Directions is also an excellent place to showcase your scientific work, professional development programming, and/or leadership curriculum at our abstract competition and poster session!

This year’s Doctoral Directions theme is "Learning to Lead in Biomedicine", and will feature renowned speakers including Dr. Wiley "Chip" Souba, Dean Emeritus of The Geisel School at Dartmouth, and Joanne Kamens, PhD, Executive Director at Addgene.

Neuroscience Seminar Series

The 2014-2015 neuroscience seminar series has been updated. For the updated schedule, please visit: [link]

Mentored Research Training Program (TL1) Request for Applications

Application Deadline: February 23, 2015
Award Start Date: April 30, 2015
The OSU Center for Clinical and Translational Science (CCTS) is seeking applicants for Mentored Clinical Research Training Program. The overall goal of the CCTS TL1 program is to provide trainees with the skills required to develop a career in trans-disciplinary clinical and translational research relevant to human health. For this award cycle, applications are being accepted for a one appointment to a post-candidacy doctoral student.

All application materials must be submitted 11:59 PM on February 23 online.

The Hayes Graduate Research Forum - In Need of Faculty

Due to some recent withdrawals, we are now experiencing a shortage of faculty member presentation judges in the Professional Biological Sciences category at the 29th annual Hayes Graduate Research Forum on 20 February 2015. More information regarding the Hayes Forum can be found here: http://cgs.osu.edu/hayes-forum/. If any faculty are interested, they may contact Michael Bowman directly at bowman.979@osu.edu.

The American Society of Human Genetics Fellowships

ASHG is currently accepting applications for TWO fellowships: our long-standing and highly regarded Genetics and Public Policy Fellowship and our recently established Genetics and Education Fellowship. These unique programs are based on a strong and enduring partnership between ASHG and the National Human Genome Research Institute at NIH. Both fellowships are mentored opportunities intended to help early-career professionals extend their experience and develop a network of professional colleagues.

The Genetics and Public Policy Fellowship is a program designed for genetics professionals with advanced degrees who are early in their careers and interested in the development and implementation of genetics health and research policies at the national level. The fellow will have the opportunity to participate in policy analysis at the NHGRI and ASHG and to work directly with the U.S. Congress.

The Genetics and Education Fellowship is a program designed for genetics professionals with advanced degrees who are early in their careers and interested in the development and implementation of national genomics literacy efforts, informal science education, science education policy, development, or science education research. The fellow will have the opportunity to participate in genetics education program development at the NHGRI and ASHG and, as an option, to work directly with other organizations involved in genetics education.

Both fellowships are 16 months, beginning in September 2015 and continuing through December 2016, and are open to individuals with advanced degrees in human genetics or related fields, prior experience in policy or education, as appropriate, and eligibility to work in the U.S.

Completed applications must be received by April 24, 2015. For additional information and application materials, please visit:
