Reminder: Course Registration Information

Please take a moment to check which classes you should be registering for and how many credit hours are required on the curriculum planning part of the program website. It is very important that you are registered for the correct amount of hours to be considered full time.

For IBGP 8999, please register for the regular session under your advisor's section. (We will not create sections for the 2nd session if you miss the registration deadlines).

The deadline to register online is Friday, August 23. See the full list of deadlines here. If you have any questions, please do not hesitate to contact us.
Fall Course Offering: Selected Topics in Microbial Pathogenesis

This will be a dynamic class centered around reading and critiquing current and classic literature in the field of microbial pathogenesis. We have recruited Faculty with expertise in different areas of microbial pathogenesis to participate along with the coordinators. Areas that will be covered this year include viral entry, microbiome, biofilms, fungal infections and immune response to viral infection.
