New Recruitment Video

We are excited to share with you our new recruitment video highlighting the College of Medicine's Biomedical Sciences Graduate Program. You can view the video here: [http://youtu.be/0J2oJrO80Ns](http://youtu.be/0J2oJrO80Ns).

Vote for Biomedical Sciences Graduate Students in CGS elections

3 students in the Biomedical Sciences Graduate Program are running for Council of Graduate Student delegate seats. **Voting is now open and closes at 5pm on 9/23/2013.** See information about each student below. They are listed under "Integrated Biomedical Sciences".

**Estevan Santana**

Voting for the Council of Graduate Student delegate seats is open and ongoing. I'm **Estevan Santana**, a fifth year in the Biomedical Sciences Program and a candidate for a delegate seat for our program. I'd like to ask for your vote. I have served on numerous student boards including our program's IBSO organization, the student board at Nationwide Children's
Hospital, and on the advisory panel for the DISCOVERY PREP program. I wish to continue my service by representing our program as a delegate on The Council of Graduate Students. I hope to take your concerns as students in the Biomedical Sciences Graduate Program and give them a voice. Please for vote me, Estevan Santana. You can vote by clicking the following link: http://cgs.osu.edu/secure/vote

Christian Harding
Hello Biomedical Sciences graduate students,

My name is Christian Harding and I am a fourth year graduate student in Dr. Robert Munson's lab. I am currently running for a delegate seat in the Council of Graduate Students (CGS). I have previously served as the secretary for our program's Integrated Biomedical Sciences Student Organization (IBSO) and would like to broaden my service experience. I am hoping to be elected so that I may represent the best interests of the graduate students within our program. To vote or gather more information please visit the CGS website appended. Thanks.

Kristyn Gumpper
Hey fellow Biomedical Students! I'm Kristyn, a second year student in Dr. Jianjie Ma's lab. I applied to be a CGS delegate for our program because I am looking to get more involved on our campus and in our program. I would like to represent all of you in the Graduate Student Government and keep you better informed of the opportunities provided by OSU including but not limited to funding and fun activities.

Graduate School News and Events

Hayes Research Forum - Now Accepting Abstracts!

Every year the Graduate School, Office of Research, and the Council of Graduate Students team up to put on the Hayes Graduate Research Forum, one of the largest research forums at Ohio State, featuring the entire range of academic areas. This year's 28th edition of the Hayes Forum will take place on Friday, February 21, 2014. This is a great opportunity to present your academic research, share your feedback with others, and collaborate with graduate students across disciplines right here at Ohio State!

We are now accepting abstracts to present research at the 2014 Hayes Forum. Please check out http://cgs.osu.edu/hayes-forum/ for more information on the forum, guidelines to presenting, and past results. Abstracts must be submitted by Friday, November 1, 2013. I would strongly encourage all graduate students interested in presenting their research to apply!

Warm Regards,
Jamie Crowsley
Vice President
The Council of Graduate Students

Other News and Events

Group Workshops Offered

The Counseling and Consultation Services office offers groups and drop-in workshops designed to address a variety of student needs, identities, and concerns. See the flyer here for more information and a list of the groups or visit their website here.

Let's Talk Program

The Let's Talk Program provides easy access to informal and confidential consultations with staff from Counseling and Consultation Service (CCS). Walk-in hours are held at various locations around campus throughout the week. There is no appointment necessary and it is free. Students can remain anonymous if they choose. Let's talk is a place where you can come to speak to a CCS staff person about your concerns and receive support, resources, and assistance with immediate problems solving. Get more information here.

P&G Information Session - Sept. 30

On Monday, Sept 30th from 6:00 - 8:00 p.m. in BRT 115, Procter and Gamble will hold an information session for students interested in learning more about the science and technology behind our brands, as well as career opportunities with P&G. Pizza and refreshments will be provided!

All undergraduate students, grad students, and post-docs in molecular biology, cell biology, microbiology, pharmacology, toxicology, veterinary science, and others are encouraged to join the information session.

See the flyer here.

Students/Postdocs: Does your research involve medical devices?

The Society of Toxicology's Medical Device Specialty Section (MDSS) is now actively recruiting new student (graduate and undergraduate) and postdoc members whose research focuses on evaluating the safety and efficacy of medical devices. Specific areas of interest include: plastics, metals, ceramics, materials of biologic origin, and validation of new/alternative toxicology assays for medical devices.

New student and postdoc MDSS membership is currently FREE! MDSS offers travel awards to the annual SOT meeting held this year in Phoenix, Arizona from March 23rd- March 27th 2014 and will also present awards for Best Overall Abstract and Best Published Manuscript. ABSTRACTS DUE OCTOBER 7th, 2013. For more membership information, please visit: http://www.toxicology.org/isot/ss/mdss/index.asp or email: sothq@toxicology.org.
Fun Fact

World Record For Longest Case of Hiccups

The world record for longest bout of hiccups is held by Charles Osborne from Iowa. He had the hiccups from 1922-1990. That's 68 straight years of hiccups. Oddly, they randomly stopped about a year before he died. Read more about the Osborne story here.
