Graduate School News

Wexner Medical Center's Trainee Research Day

Congratulations to all BSGP students who participated in the Wexner Medical Center's T
Day which was held on Wednesday and Thursday, April 20 and 21. More than 200 posters were presented at the event.

The following BSGP students won travel awards for their outstanding poster presentations:
* Kelly Regan
* Stephen Bergin
* Lindsay Webb

Eric Pozsgai was selected to present in the Allan Yates Memorial Trainee Speaker Series. Dr. Ginny Sanders, former Faculty Director of the Biomedical Sciences Graduate Program, was honored with the 2016 Research Mentor of the Year Award.

Kudos to the BSGP Co-Chairs of the Event:
* Michael Koenig
* Alecia Blaszczak

Preparing for Candidacy: Discussion Panel - May 4th

Please join the Bennett Graduate Research Society for a panel discussion on how to successfully pass candidacy. Panelists include students who have recently completed candidacy and will discuss tips and tricks for preparing for the oral and written portions of the exam as well as share their personal candidacy experiences.

May 4, 2016
3:00-4:30pm
1187 Graves Hall

Refreshments provided!!

Updated Form: Payroll Deduction for Graduate Associates, Fellows, and Trainees

The Payroll Deduction for Graduate Associates, Fellows, and Trainees form has been updated and is now available through eSignature/Docusign. The updated PDF version is also available on the Graduate School website. More information about DocuSign

Academic Integrity Workshop Available for Graduate Programs

Following a pilot presentation earlier this spring, the academic misconduct workshop is now being offered to graduate programs and offices across campus. The workshop focuses particularly on international students and gives guidance on behavior that can undermine academic integrity. The workshop provides real examples of academic misconduct (especially regarding the use of sources and citation practices) and recommended tips and resources for graduate students.
Judge High School Competitors at the Ohio State Science Day

I am looking for judges for The Ohio State Science Day, the state-level science fair for 7-12th grade from all across Ohio have already won or scored very highly at their local science fair and are showing up en-masse to compete for various awards. This is the cream of the crop. Specifically, we will be judging students who expressed interest in the Future Physician Scientist Award. Since this is high school, and everyone wants to be a doctor at this age, the FPSA is one of the most sought after awards and in the past has garnered around 150 entrants. It will take place on Saturday morning, May 14th at 8am at the St. John Arena (across from the Shoe and next to the Blackwell). You would show up around 8am and definitely be out by noon (details to come) and receive a fancy VIP pass to park right out front. It is worth the sacrifice of a Saturday morning of sleeping in. This is a great way to connect with budding physician scientists, and provides an opportunity to give them feedback about their work as well as answer questions about your life as a medical/graduate student.

Please e-mail me (bobba.6@osu.edu) if you're interested in helping out with this. As everyone has fun, I would also rather not have to judge 150 posters alone.

Tech Strategy 16.2

April 19, 5:30-8:30 p.m.

Faculty Club

Interested in a career in data/analytics? Join TechLife Columbus and Translational Data Analytics @ Ohio State for a special networking event exclusively for Ohio State students. It’s a rare opportunity to network with more than 100 CEOs and senior leaders from start-ups/small businesses in Central Ohio. Register (space is limited)

Cincinnati Children's Research Foundation Postdoctoral Opportunities

Cincinnati Children's Hospital Medical Center (CCHMC) is a premier pediatric research i
over 900 diverse and productive faculty members. Here, researchers work collaboratively specialties and divisions to address some of the biggest challenges we face today in improving child health. A strong network of research support services and facilities, along with institution to research, push our team of faculty, postdocs and support staff to explore the boundaries possible, leading to significant breakthroughs. We are driven by our mission to improve and transform the delivery of care through fully integrated, globally recognized research, education and innovation.

Post-doctoral research fellows at Cincinnati Children’s are valued for their unique interest and are supported by our institution’s strong programming for post-docs through the Office of Postdoctoral Affairs and the Office of Academic Affairs and Career Development. Mentoring, support for students and an emphasis on crafting high-quality grant proposals are only a few of the features that set our program apart. Cincinnati Children's is a respected part of the broader, and very vibrant, Cincinnati community. With a thriving arts scene, numerous festivals celebrating music and food, a following for our college and professional sports teams, and a variety of opportunities for activities, our region is truly a great place to work and live.

Please view the website to see all of the postdoc opportunities at Cincinnati Children's: http://www.cincinnatichildrens.org/education/research/postdoctoral/current-openings/
