**Science Communication Workshop**

The Life Sciences Network will be hosting a special workshop on June 10 & 11 for graduate students and postdocs in the life sciences. The Science Communication Workshop: Writing to Make an Impact (https://lsn.osu.edu/writing-workshop) will bring together leading life scientists and science writers from across campus to teach trainees the strategies for building a stronger manuscript, what it takes to get published, and tips for writing more effectively.

Space is limited to graduate students and postdocs and is geared specifically toward the life sciences.

See flyer.

**P & G Seminar : Molecular Profiling in Health and Disease: Utility in Discovery of Agents to Improve Skin Condition**

Speaker: Dr. Kevin Mills
Date: Friday, June 13th
Time: 12:30 - 1:30 pm
Location: Room 115, Biomedical Research Tower  460 W. 12th Ave

Dr. Kevin Mills is a Senior Research Scientist working with P&G in its Global Beauty Technology Division in Cincinnati, Ohio, where he is leading a team that applies contemporary methods in cell and molecular biology to physiologically define skin health and to discover new materials to improve skin condition by targeting pathways that regulate epidermal homeostasis

See flyer here.

To attend, RSVP to Lauren Graham at BSGP@osumc.edu
