Versatile PhD Survey

Have you used Versatile PhD to find information about careers outside the academy or to connect with others who are exploring these opportunities?

If so, please take this brief survey. We want to know what you think about this service. The Graduate School has purchased it for you, and we want to make it as useful as possible. The survey is, as is Versatile PhD itself, anonymous and confidential. Click here for more information. Contact Kathleen Wallace at 247-7300 with any questions.

Other News and Events

Mojo Tonic Benefit (Drs. Jim Waldman and Jim VanBroklyn et al.)

Mojo Tonic (Drs. Jim Waldman and Jim VanBroklyn et al.) are playing a benefit concert for the Heller family, whose love and determination to meet daughter Lucy's intensive medical needs far outweighs their ability to cover the expenses - Friday, 10 May at the Bluestone in Columbus (see flier). Mojo Tonic starts at 7:00 PM, Sarah Rutherford will also perform. A noble cause, to be sure. Please drop by if you're in the neighborhood.

Health Insurance, Students with Spring Coverage

Coverage automatically continues through August 13, 2013 for students currently enrolled in the Ohio State University Comprehensive Student Health Insurance Plan for spring semester 2013. No action or additional fees are necessary. Students are also not required to enroll to maintain coverage.

Students who are graduating in the spring semester are also covered until August 13, 2013, and additional coverage for up to six months may be obtained through Aetna Student Health.

More information. Contact: Student Health Insurance, 688-7979, or Lincoln Tower, Room 1100.

National Academies Fellowship Awards

The National Research Council of the National Academies sponsors a number of
awards for graduate, postdoctoral, and senior researchers at participating institutions. These awards include generous stipends and provide opportunities to do independent research in some of the best laboratories in the U.S. There are four annual review cycles; the first closes May 1. More. Contact: NRC, (202) 334-2760.

Fun Fact

Earth's Core 1,000 Degrees Hotter Than Expected

Earth's internal engine is running about 1,000 degrees Celsius (about 1,800 degrees Fahrenheit) hotter than previously measured, providing a better explanation for how the planet generates a magnetic field, a new study has found. Read more here.
