For the Week of December 17, 2012

Biomedical Sciences News and Events

Dr. Larry Gelbert Presentation Information

Dr. Larry Gelbert spoke about Career Opportunities in Pharmaceutical Sciences at our student retreat two weeks ago. Dr. Gelbert is a consultant to non-profits and biotechnology companies on rare, neglected, and genetic diseases & Adjunct Faculty Member, Department of Pediatric Hematology/Oncology, Indiana University School of Medicine. His presentation can be found here. He also provided us with 2 poster presentations which can be found here and here.

Medical Center News and Events

Complete Annual Requirements for Medical Center

Don't forget to get your annual flu shot and complete the HIPAA CBL. This is required of all employees, including all faculty, staff and paid students of the College of Medicine and the Office of Health Sciences.
If you haven't already done so, please complete the HIPAA Privacy & Security CBL as soon as possible. If you have questions about the HIPAA CBL or your compliance status, please contact the Privacy Office directly via email.

To check if you are compliant on both of these requirements, visit the Influenza / HIPAA CBL Compliance Site

Computer access will be taken away from those who do not complete both of these requirements by December 31, 2012.

Other News and Events

Unique Postdoctoral Program Opportunity: IRACDA

Institutional Research and Academic Career Development Award (IRACDA) is a unique three-year postdoctoral program designed to train fellows in biomedical research and teaching. IRACDA is funded by the National Institutes of Health/National Institute of General Medical Sciences and combines a traditional mentored postdoctoral research experience with an opportunity to develop teaching skills through formal pedagogic training and mentored assignments at minority-serving institutions. See the flyer here.

Course Offering: Experimental and Theoretical Pharmacology

Pharmacy 8700 is a 4 unit semester course designed to explore receptor biology and signal transduction from theoretical and molecular biological perspectives. It will meet Tu, Wed, Th, and Fri from 10:20 to 11:15 in Room 551 Parks and will be taught by Tony Young and Terry Elton. Graduate students interested in cell signaling from any of the life science programs are welcome to enroll. A course syllabus is attached here.

Enjoy discounts this holiday season

This holiday season, Ohio State faculty and staff can access several discounts and promotions for shopping and entertainment, including discounts on Broadway shows, and mobile devices and services, and faculty and staff appreciation days at Ohio State bookstores, Click here to see the flyer.

Fun Fact

Nobel Prize Facts

If you are nominated for a Nobel Prize, you'll likely never know unless you win. There are more than 200 initial nominees for the various awards each year, a number that is narrowed down by a selection committee to a shortlist (usually three to five people or organizations). The names of the initial nominees, as well as those shortlisted, are kept secret for 50 years,
in part to prevent lobbying on the behalf of nominees. Read more Nobel Prize Facts here.
