The School of Health and Rehabilitation Sciences

The School of Health and Rehabilitation Sciences (SHRS) is a School in The Ohio State University College of Medicine. The School is nationally recognized as a leader in practice-based health care education. For more than five decades, the School has prepared students to achieve personal and professional excellence, as they pursue an exciting career in healthcare.

PROGRAM OVERVIEW

The Health sciences program is intended for students interested in continuing their education in a graduate field in health care or in pursuing an entry level job in health care. Students interested in graduate school pursue degrees in areas such as Occupational Therapy, Physical Therapy, Medicine, Public Health, Hospital/Health Services Administration, Dentistry, Optometry, Nursing, Veterinary Medicine, Medical Dietetics and/or another graduate program of their choice upon graduation. The Health Sciences program also offers the opportunity for students to enter the health care field in various community education and patient center management positions. Students receive an introduction to the organization and delivery of healthcare as well as general education. The program provides the foundation of coursework for students to complete the Certified Health Education Specialist exam and can also be used for students to complete their bachelor’s degree after achieving an associate’s degree in a related health care field.

ADMISSION & APPLICATION PROCEDURES

Applicants must meet the following minimum requirements and submit requested materials to be considered for admission. The application deadline for SPRING 2016 is October 16th, 2015. The professional program will begin January 2016.

1. An electronic application is available online at gradadmissions.osu.edu which must be completed and submitted with all required supplemental documents, if applicable.
2. A minimum 2.50 cumulative GPA is required in all coursework taken at all accredited institutions. All post-secondary coursework is considered. Although a 2.5 GPA is the minimum, the average GPA is higher.
3. Completion of all prerequisite courses or their equivalents with a C- or higher by the end of autumn semester, 2016.
4. First year students who are in the Honors or Scholars program can be directly admitted into the Health Sciences program. Additionally, current OSU Honors or Scholars students can be directly admitted into the Health Sciences program with a cumulative GPA of 3.0 or higher. Please contact an SHRS advisor to see if you qualify.

DEGREE REQUIREMENTS

The minimum total hours to graduate from The Ohio State University is 120 semester hours. The Health Sciences program requires a minimum of 120 hours barring special circumstances. Some students may need to take one or more general elective courses to meet the minimum total credit hours required for graduation. This includes all general graduation requirements, general education curriculum, admission prerequisites, program prerequisites, professional curriculum, and courses for a mandatory minor (minors typically consist of 15 credit hours). Remedial, conditional, and repeated coursework do not count towards the minimum hours.

GENERAL EDUCATION (18 SEMESTER HOURS THAT DO NOT DOUBLE COUNT AS PREREQUISITE COURSES)

SHRS students must complete all General Education (GE) before graduating from the University. Some of these requirements overlap with program prerequisites or professional curriculum courses. The required coursework is listed below:

Students are encouraged to double count the global and social diversity GE requirements with other GE.

- Writing (6 hours)
- Math (4-5 hours)
- Art (3 hours)
- Historical Study or Culture & Ideas (3 hours)
- Data Analysis (3 hours)
- Literature (3 hours)
- Science (10 hours)
- Social Diversity in the US (0-3 hours)
- Social Science (6 hours)
- Global Studies (0-6 hours)
- Historical Study (3 hours)
- Open Options (6 hours)

PROGRAM PREREQUISITES & COREQUISITES (34-37 SEMESTER HOURS INCLUDING COURSES THAT DOUBLE COUNT AS GE COURSES6)

Students who wish to apply to the Health Sciences program for Spring admission must have completed all prerequisite courses or their equivalent below with a C- or higher by the end of autumn semester, 2015.

Please note that Math 1148 cannot be taken concurrently with Chemistry 1210.

**Program Prerequisites (to be completed prior to starting program)**

- College Level Math
- Three Sciences (one with lab)

**Program Prerequisites (to be completed prior to starting program)**

- Anatomy
- Human Physiology

**Co-Requisites (to be completed while in the professional program)**

- Psychology
- Sociology
- Medical Terminology
- Statistics

**OSU Course Equivalents**

- Math 1148 or 1149 or 1150 GE
- Bio 1101 or Bio 1113 or Chem 1110 or Chem 1210 or Chem 1220 or Physics 1200 GE
- Anatomy 2300 or Anatomy 3300 or EEOB 2510 GE
- EEOB 2520 or Physio 3200 GE
- Psych 1100 GE
- Soc 1101 or Rursoc 1500 GE
- HTHRHS 2500 or Classics 2010
- Stats 1350 or 1450 or Psych 2220 GE

**It is up to the student to be pro-active in identifying graduate programs of interest so that they can schedule the 3 science courses accordingly.**

**MINOR** The Health Sciences program requires that students complete a minor of their choice. Students interested in attending PA, Dentistry, Optometry, or medical school should consider the Biology minor. More information on the 100+ available minors can be found here: http://artsandsciences.osu.edu/students/minors.
PROFESSIONAL CURRICULUM (47 SEMESTER HOURS)

The professional curriculum includes courses available to students who have been admitted spring semester to the professional program. Students may complete the coursework on a part-time basis, however courses are typically offered once per academic year.

SUGGESTED SCHEDULING PLAN

The following plan demonstrates how students may complete the Health Sciences program in three semesters. The semester and year in which some courses are placed can be adjusted to meet the individual needs of students. It is assumed that students following this plan who are admitted to the program will begin professional coursework spring semester of year three. Please meet with an advisor to discuss your specific coursework.

SCHEDULE IS BASED ON A TRADITIONAL 4 YEAR COURSE OF STUDY. COURSE OFFERINGS ARE A TENTATIVE PLAN AND SUBJECT TO CHANGE.

ADDITIONAL INFORMATION

It is strongly recommended that prospective students schedule an appointment with their pre-HRS advisor. If you are not a pre-HRS student, you must complete an online major information session prior to meeting with a pre-HRS advisor. Further information can be accessed online under the future students tab. Prospective students such as baccalaureate degree-holders, transfer, international, or those that have time commitment issues such as student athletes and band members are strongly encouraged to meet with a pre-HRS advisor to discuss special circumstances which may apply.
