Clinical Skills Education and Assessment Center

Task Trainer and Equipment Inventory

Slide Quick Key

- Ultrasound Equipment ................................................................. 2
- Line Access Trainers ................................................................. 3-5
- Airway/Pulmonary Trainers ......................................................... 6-7
- “Centesis” Trainers ................................................................. 8-9
- Female OB/GYN Trainers ............................................................... 9-12
- Male Exam Trainers ................................................................. 13-14
- Foley Trainers ........................................................................ 15
- Injection Trainers .................................................................... 16
- Other ..................................................................................... 17-19
Ultrasound Equipment

Number of Machines: 10

**GE Logiq e**
- Quantity: 1
- Probe Types: 1 convex, 1 phased array, 1 linear

**Sonosite MicroMax**
- Quantity: 1
- Probe Types: 1 convex, 1 linear, 1 phased array

**Sonosite M Turbo**
- Quantity: 4
- Probe Types: 3 convex, 2 vaginal, 6 linear, 3 phased array

**X-Porte**
- Quantity: 4
- Probe Types: 4 cardiac phased array, 4 linear, 4 convex, 2 vaginal
Central Line IJ/Subclavian
**Ultrasound Compatible**
Number of Models: 6 (4 small, 2 large)

Central Line Femoral
**Ultrasound Compatible**
Number of Models: 2

Central Line Anatomy Model
Number of Models: 2
Regional Nerve Block
**Ultrasound Compatible**

Number of trainers: 1

Branched Vessel Block
**Ultrasound Compatible**

Number of Models: 4

Epidural & Lumbar Block/Drain
**Ultrasound Compatible**

Number of trainers: 1

Peripheral Nerve Block
**Ultrasound Compatible**

Number of Models: 2
Peripheral IV Trainer

Number of Trainers: 8

ArterialLine/ABG Trainer

Number of Trainers: 4

I.O Trainer

Number of Trainers: 2

**Ultrasound Compatible**

PICC/IV/A-line Trainer

Number of Trainers: 1
Airway Trainers (Laerdal)
Number of Models: 5

Airway Anatomy
Number of Models: 4

Cricothyrotomy
Number of Models: 4

Airway Trainers (7 sigma)
Number of Trainers: 4
(2) can be changed to burn victim airway
Difficult Airway Trainer

Number of Trainers: 2
Tracheostomy

Number of Models: 0

Waiting for replacement trainer

Thoracentesis

**Ultrasound compatible**

Number of Models: 2

Chest Tube Trainer

Number of Models: 4

Harvey

Number of Models: 1 (with 12 total stethoscopes)
Pericardiocentesis
Number of Models: 1

Paracentesis
**Ultrasound Compatible**
Number of Models: 2

Lumbar Puncture
Number of Models: 4

Amniocentesis
**Ultrasound Compatible**
Number of Models: 1
Double Breast Exam
**Ultrasound compatible**
Number of Models: 5

Single Breast Biopsy
**Ultrasound compatible**
Number of Models: 3

Single Breast Self Exam
Number of Models: 2

Cervical Dilation
Number of Boards: 1
Prompt Flex Birthing Model

Number of Simulators: 3

Female Speculum

Number of Trainers: 4

Female Pelvic Exam

Number of Trainers: 4

Female Pelvic Exam
Abnormality Inserts

Number of Inserts: 6
(2 Normal, 1 Ovarian Cyst, 1 Small Fibroid, 1 10-12wk Pregnant, 1 Anteriorly Multiparous Cervix)
Ectopic Pregnancy
**Ultrasound compatible**
Number of Models: 1

Intrauterine Pregnancy
**Ultrasound compatible**
Number of Models: 1 (7 wk, 1 day)
Prostate/Rectal Exam
Number of Models: 1

Prostate/Rectal Exam
Number of Trainers: 4

Male Cystoscopy
Number of Trainers: 1

Testicular Exam
Number of Models: 4
Male Pelvic Model
Number of Trainers: 1

Male Pelvic Trainer
Number of Trainers: 4

Pelvic Trainer
Abnormality Inserts
Number of Inserts: 12 (2 sets of 6)

NG/PEG Tube Trainer
Each trainer includes the anatomic practice board
Number of Trainers: 4
Interchangeable Male/Female Foley Trainers

Number of Models: 6 total
**Injection Trainer**

**Attaches to leg or arm**

Number of Trainers: 11

---

**Knee Injection Model**

Number of Models: 2

Ultrasoundable

---

**Shoulder Injection**

Number of Models: 2

---

**Hand/Wrist/Elbow Injection**

Number of Models: 4 (2 hand/wrist, 2 Elbow)
Ingrown Toenail Model

Number of Kits: 1

Ear Model

Number of Models: 1

Ventriculostomy Model

Number of Models: 1
ACLS Trainer

Number of Trainers: 4

Auscultation Pads

Number of Pads: 50

Direct Ophthalmoscope Simulator

Number of Trainers: 2
Basic Knot Tying Boards
Number of Boards: 37

Advanced Knot Tying Boards
Number of Boards: 14

Pitting Edema Trainer
Number of Trainers: 20 total (4 normal, 4 +1, 4 +2, 4 +3, 4+4)
