

The Ohio State University Wexner Medical Center

Cardiologist | Division of Cardiovascular Medicine

The Division of Cardiovascular Medicine is seeking a board-certified/ board-eligible noninvasive cardiologist to join an elite team of academic physicians at the assistant or associate professor rank. The successful candidate will focus on both routine and complex cardiovascular care including inpatient and outpatient consultative and primary services in a world-class facility at the Richard M. Ross Heart Hospital. Interest or experience in imaging is a must. The Ohio State University Division of Cardiovascular Medicine is setting new standards for advanced heart and vascular care through our internationally and nationally recognized experts of more than 60 cardiology and vascular medicine specialists. We offer heart and vascular patients some of the most exciting and innovative technologies, treatments and clinical trials, many of which are only available at Ohio State. The majority of our faculty are principal investigators on a variety of research projects in both the basic, translational and clinical research settings.

Qualifications:

- Board Eligible/Certified in Cardiology
- Successful completion of a US accredited cardiology fellowship
- Eligible for an Ohio License
- Qualify for academic appointment at The Ohio State University – Academic rank and salary will be commensurate with previous training and experience.

The Division of Cardiovascular Medicine

The Division of Cardiovascular Medicine comprised of over 60 cardiologists with focus areas to include: general cardiology, interventional, electrophysiology, adult congenital heart disease, heart failure, heart transplantation, mechanical circulatory assist, pulmonary vascular disease, women's cardiovascular disease, cardiac MRI/CT, and cardio-oncology. The Division is affiliated with the Ross Heart Hospital which ranked as "Best Hospital" in the top 50 in the nation as reported by US News and World Report. In addition to the 60 cardiologists, there are six fellowship programs: core cardiovascular medicine fellowship, interventional cardiology fellowship, electrophysiology fellowship, heart failure and cardiac transplant fellowship, adult congenital heart disease fellowship, and cardiovascular diagnostic imaging fellowship. The division provides services in over 12 counties in Ohio and Kentucky.

Environment and Culture

The Ohio State University along with its academic partner the Ohio State University Wexner Medical Center is located in Columbus, Ohio, the state capitol and the 14th largest city in the United States. From historic communities and suburban living to college crowds and nightlife, Columbus is a friendly Midwestern town with metropolitan style. The city is renowned for its leading technological companies, vast academic resources, thriving industry, an eclectic mix of entertainment, dining and shopping, and easily accessible opportunities for sports and recreation for participants and fans alike. The University and Medical Center are home to an exciting, growth-oriented culture of innovation and discovery.
