

Combined Internal Medicine-Pediatrics Residents PGY3

Cole Bredehoeft, MD

Contact: cole.bredehoeft@osumc.edu

Hometown: Green Ridge, MO

Undergrad: University of Missouri, Columbia (MIZ!)

Medical School: University of Missouri, Columbia (ZOU!)

Why OSU/NCH for residency: Great categorical programs and so many Med-Peds trained faculty at OSU and NCH. Really enjoyed my interactions with current residents and program leadership on my interview plus all the residents seemed super closer, which proved to be true. Also, wanted to be a part of a large program so 10 residents per year was perfect.

Career Plans and Interests: Med-Peds Infectious Disease

Hobbies: Spending time with my fiancé, Tim, and our dog, Maverick. Finding any reason to get together with co-residents. Kansas City Chiefs football (And yes, I was a fan before the most recent Super Bowl win-I had no choice, my family would've disowned me if I wasn't).

Favorite OSU or NCH rotation: OSU: MICU Night Float // NCH: Infectious Disease (Inpatient & Consults)

Favorite thing about Columbus: Growing city with something always going on and new things to try. Super easy and quick to get anywhere. Lots of breweries and restaurants to visit on days off.

Duncan Campbell, MD

Contact: duncan.campbell@osumc.edu

Hometown: Findlay, OH

Undergrad: University of Notre Dame

Medical School: Loyola University, Chicago

Why OSU/NCH for residency: To come back to Ohio and be close to family, and to practice at a big academic center with a great reputation and awesome coworkers! A great restaurant and beverage scene. Our South High Clinic staff is a major draw too!

Career Plans and Interests: Primary care vs. Med-Peds Hospitalist

Hobbies: Golf, reading, podcasts, and playing with my daughter!

Favorite OSU or NCH rotation: OSU: MICU, NCH: Infectious Disease

Favorite thing about Columbus: The people (family, friends, fellow residents) and, all of the things to do.

Combined Internal Medicine-Pediatrics Residents PGY3

	<p>Jen DeSalvo, MD Contact: jennifer.desalvo@osumc.edu Hometown: Cleveland, OH Undergrad: The Ohio State University Medical School: The Ohio State University Why OSU/NCH for residency: I LOVE the people here! Our Med-Peds family is very close and well supported at both institutions, with opportunities for Med-Peds physicians to work in a wide variety of fields and types of practices. I've also fallen in love with Columbus and have two younger siblings that attend OSU so it's been fun to cheer on the Buckeyes together! Career Plans and Interests: I'm really passionate about Adult Congenital Heart Disease, and the social determinants of health and disease knowledge and education that play into transitioning from pediatric to adult care. I've also enjoyed the opportunity to connect with faculty passionate about ultrasound education and global health. Hobbies: Looking for the best brunch spots and breweries in Columbus, hiking in National Parks, playing soccer, exploring Columbus with family and friends. Favorite OSU or NCH rotation: ACHD clinic, Heart 1 (mostly people with CHD and PH), and Heart Failure at OSU/Peds Pulm and Cardio at NCH Favorite thing about Columbus: The food/coffee/brewery scenes and festivals.</p>
	<p>Dominic Haertling, MD Contact: dominic.haertling@osumc.edu Hometown: Perryville, MO Undergrad: University of Missouri, Columbia Medical School: University of Missouri, Columbia Why OSU/NCH for residency: I knew I would get superb clinical training on both the IM and Peds sides. There is also an incredible Med-Peds presence here that in pretty much every subspecialty you look, you can find someone that was Med-Peds trained. To top it off, the faculty and residents are stellar. Career Plans and Interests: Primary Care, Combined Hospitalist, Mixture of the two. Hobbies: Running, traveling, snow skiing, craft breweries. Favorite OSU or NCH rotation: Heart 1, NICU, South High Clinic Block Favorite thing about Columbus: The bigger city amenities with the smaller city feel.</p>

Combined Internal Medicine-Pediatrics Residents PGY3

	<p>Brandi Heinz, MS, MD Contact: brandi.heinz@osumc.edu Hometown: Beloit, OH Undergrad: Malone University Medical School: Albany Medical College Why OSU/NCH for residency: I wanted a Med-Peds program that was strong in peds and medicine! I also wanted a larger program size and a program where residents were genuinely happy- as a third year can confirm that the happiness is real. We're also part of a larger Med-Peds community in Columbus and I've had multiple fellows and attendings on rotations that were Med-Peds trained. Career Plans and Interests: Primary care Hobbies: Chilling with my pups (& husband), eating new foods, going to Crew games, cheering for Cleveland, Columbus or UW sports. Favorite OSU or NCH rotation: Being in the ED and MICU during a pandemic was wild, but I learned so much! I've honestly enjoyed something about every rotation! Favorite thing about Columbus: With little effort I can find a new, delicious restaurant, go on a hike, or find a festival/event when I have a day off.</p>
	<p>Michael Neiger, MD Contact: michael.neiger@osumc.edu Hometown: Columbus, OH Undergrad: The Ohio State University Medical School: The Ohio State University Why OSU/NCH for residency: Throughout my med school rotations, the Med/Peds residents were consistently my favorite people to work with. I learned a lot on each of those rotations and still always had a good time. My one-month elective working at South High (the resident clinic) easily confirmed this was the right program for me. Career Plans and Interests: Probably primary care. I'm interested in caring for individuals with developmental disabilities. Hobbies: Trivia, movies, OSU Buckeyes/Cleveland Browns football. Favorite OSU or NCH rotation: Medicine night float was actually really fun - lots of autonomy and opportunities to grow as a physician, and great bonding with your co-residents. The MICU has always been a lot of fun too. Very complex patients with interesting physiology. Favorite thing about Columbus: Football Saturdays in the Shoe, wandering through the Book Loft in German Village.</p>

	<p>Anthony Sanchez, MD Contact: anthony.sanchez@osumc.edu Hometown: Naperville, IL Undergrad: The University of Notre Dame Medical School: The Ohio State University Why OSU/NCH for residency: I love living in Columbus, both programs are very strong, and the med/peds faculty are the best here! Career Plans and Interests: Combined palliative medicine fellowship Hobbies: Cooking (J. Kenji Lopez-Alt is my hero), dad jokes, craft beer, coffee, exercising, doting on (annoying) my high-maintenance pomeranian princess, Skoshi, and educating myself about financial independence/personal finance from a physician perspective. My wife Judy and I are also looking forward to welcoming our first baby to the family in December! Favorite OSU or NCH rotation: Palliative consults, hospital peds, Ross nights, gen med night float. Favorite thing about Columbus: Excellent breweries, coffee shops, a surprisingly good food scene, and a lot of hidden gems for hiking and outdoorsy stuff.</p>
	<p>Matthew Schreier, MD Contact: matthew.schreier@osumc.edu Hometown: Shoreview, MN Undergrad: University of Notre Dame Medical School: Loyola University, Chicago Why OSU/NCH for residency: OSU and NCH had all the academic rigor, depth of training, and access to congenital cardiology that I wanted, but at the end of the day I walked away from my interview day feeling like this is a program I could really feel at home in and that made the decision for me. The med-peds family is so tight-knit and welcoming here and I loved (and still love) the idea of working with friends every day. Also, Delana. Mainly Delana. Career Plans and Interests: Pediatric/Adult Congenital Cardiology, PICU/CTICU Hobbies: Hiking, cooking/baking, trying obscure restaurants, exploring Columbus with friends. Favorite OSU or NCH rotation: Ross (Adult Cardio) Nights, PICU, ACHD Clinic Favorite thing about Columbus: Random food trucks literally everywhere, unexpectedly awesome outdoor activities, very little traffic.</p>

Combined Internal Medicine-Pediatrics Residents PGY3

Shilpa Sridhar, MD

Contact: shilpa.sridhar@osumc.edu

Hometown: Buffalo, NY

Undergrad: Duke University

Medical School: The Ohio State University

Why OSU/NCH for residency: I chose this program for the balance between the IM and Peds programs, and because I wanted to be at institutions where the categorical programs were also both awesome. Both OSU and NCH have cutting edge research, exposure to a large variety of interesting diagnoses, and fantastic faculty members who are invested in educating trainees. After having gone to med school here I knew how awesome the IM-Peds residents are here and how much they are truly valued by the two categorical programs.

Career Plans and Interests: Undecided but I will be pursuing a fellowship. Top choices right now are adult Pulm/CC and combined Nephrology.

Hobbies: Reading things outside of medicine (specifically fantasy and historical fiction!), literally anything to do with Harry Potter, eating, traveling, being outside, and singing.

Favorite OSU or NCH rotation: Probably a tie between night float at OSU and MICU. Both allowed me to have autonomy which made me truly grow as a physician, and I got to do many bedside procedures which I enjoy!

Favorite thing about Columbus: The food! It feels like every few months there is a new restaurant everyone is raving about!

Christopher Woeste, MD

Contact: christopher.woeste@osumc.edu

Hometown: Dayton, OH

Undergrad: University of Dayton

Medical School: Wright State University

Why OSU/NCH for residency: The wonderful training in both adult and pediatric medicine and the people who choose to do both at the institutions.

Career Plans and Interests: Complex Care, Critical Care, and/or Cardiology

Hobbies: Running, cycling, watching TV, spending time with family.

Favorite OSU or NCH rotation: The ICU, given all of the different physiologies at play.

Favorite thing about Columbus: The food, the beer, and the people
