

# UNDERREPRESENTED IN MEDICINE AWAY ROTATION SCHOLARSHIPS

*Now Available*

The Department of Otolaryngology-Head and Neck Surgery at The Ohio State University Wexner Medical Center is offering \$1,500 away rotation scholarships for underrepresented medical students for the upcoming academic year. Scholarships will be used to help offset costs for travel, lodging and other student needs.

Students who would like to apply for a scholarship should be in their fourth year of medical school and interested in rotating at The Ohio State University Wexner Medical Center. They should also have plans to apply for an Otolaryngology-Head and Neck Surgery (ENT) residency position.

Applicants should apply prior to the first day of their away rotation; early submission is encouraged. Please provide a letter of interest (one page in length), an updated CV and one letter of recommendation. All applications will be reviewed by Ohio State College of Medicine faculty.
