<b>Rotation Name</b>	Mammo	Mammo/NM <sup>1</sup>	NM	US	Elective	Elective	Elective	Mini Fellowship					

Vacation time is scheduled upon request, and is not according to a designated rotation.

Site 1: Ohio State University Hospital

Site 2: Nationwide Children's Hospital

<sup>1</sup> Two week rotation

<sup>2</sup> Chest CT/NF/NM rotation is comprised of two weeks Chest CT, 1 week of NF, and 1 week of Nuclear Medicine

Residents do not have a dedicated research rotation. They are able to request 30 days throughout the residency to complete their research project

Electives are taken during the second, third and fourth year. Choices include rotating in any of our subspecialty areas, a technical rotation, or a 3D lab rotation.

% Outpatient is applicable to the IR rotation, and is 25% Outpatient

<b>Key</b>		<b>Key</b>	
AIRP	American Institute for Radiologic Pathology	Mammo	Breast Imaging
ABD CT/FL	Abdomen CT and Fluoroscopy	MSK	Musculoskeletal
ABD MR	Abdominal MR	Neuro	Neuroradiology
BIR	Body Interventional	NF	Night Float
Chest	Thoracic Imaging	NM	Nuclear Medicine
CV	Cardiovascular	Peds	Pediatric Radiology
ED	Emergency Department	OBUS	Obstetric Ultrasound
IR	Interventional Radiology	US	Ultrasound
