

Successful Program Completion Criteria Information

A goal of the Medical Careers Pathway (MEDPATH) Post Baccalaureate Program is to prepare students for medical school and assure the development of a strong academic science base. A solid foundation in biology, chemistry, and physics can enhance the preparation for the upper level science courses and impact future performance on the United States Medical Licensure Exams (USMLE). Students admitted to the MEDPATH Program must satisfy the following requirements by the conclusion of the program to matriculate into The OSU College of Medicine:

1. Attend the week-long orientation held in August
2. Follow the individual academic plan, as designed by MEDPATH staff and student;
3. Attend all MCAT preparation course sections and complete all corresponding course assignments, achieving an overall grade of "Satisfactory";
 - a. An MCAT preparation course is incorporated into the spring semester curriculum of the Program. The course will emphasize test-taking skills which can prove helpful not only with the MCAT but also for future testing situations during your time in the College.
4. Comply with the professionalism standards, as set forth by the OSU College of Medicine (See Section 8: [Professionalism Standards](#)).¹
5. Obtain a total MCAT score of \geq the 51st percentile on the May 2023 administration².
6. Meet or exceed a cumulative GPA of 3.0 or better by the end of Spring Semester 2023 with a full course load Autumn and Spring semesters.
7. Meet or exceed the minimum passing score of 70 percent in the Summer Pre - Entry Program³.
8. MEDPATH participants who do not meet the professionalism standards as set forth by the College of Medicine are subject to all relevant College of Medicine policies. (See Section 7: [Academic, Noncognitive, and Professionalism Review Process](#))

Students who do not meet the MEDPATH Post Baccalaureate Program Successful Program Completion Criteria or who are dismissed from the MEDPATH Post Baccalaureate Program will not be eligible to repeat the year or reapply to the Program.

Working while enrolled in the MEDPATH Post Baccalaureate Program is strongly discouraged. However, if a student must be employed during the Program, hours should be limited to no more than 20 per week.

¹Failure to comply with Items 1 – 4 may result in a recommendation for dismissal from the MEDPATH Program and referral to the appropriate College of Medicine review body. Satisfactory completion of all components of the MEDPATH Program is required to maintain conditional admission to the OSU College of Medicine.

²The MCAT score percentile retake minimum is subject to change, effective May 1 of each year per the AAMC Percentile Ranks calculation. An updated Successful Program Completion Criteria Information sheet will be updated and forwarded after May 1.

³ Failure to meet the minimum MCAT score, GPA and/or the minimum passing score required in the Summer Pre-Entry Program (Items 5 - 7) will result in dismissal from the MEDPATH Post Baccalaureate Program and ultimately the rescinding of the offer of conditional admission to the OSU College of Medicine.
