

Orientation to LP
ONE MINUTE LEARNER HUDDLE – STUDENT
Session 1

The first session is intended to be an orientation to the practice. We want you to understand the flow of the clinic and how you can contribute. You should work with the nurse or MA.

- **GOALS:** **Remember to be specific!**
 - Respectfully communicate with patients, staff, and other team members
 - Meet members of the office, introduce self and understand roles of different providers
 - Review office policy and procedures with office manager
 - Shadow the MA or designee, understand their role
 - Independently perform MA functions (Intake, Vital Signs)

- **GETTING GOING:** When how and who should I see?
 - Work with MA/designee to room patients, follow one patient through entire visit
 - Work with MA/designee to obtain accurate vital signs on one patient

- **HOW MUCH AND HOW LONG**
 - “How much of the visit should I do on my own?”
 - “How long should I spend with the patient?”

- **QUESTIONS:**
 - “When is a good time to ask questions that come up?”

BONE & MUSCLE DISORDERS BLOCK

ONE MINUTE HUDDLE

“Can I touch base with you quickly about the plan for this session?”

1. GOALS: Remember to be specific!

- Respectfully communicate with patients, staff, and other team members
- Practice interviewing patients and obtain CC and HPI
- Practice documenting a patient’s HPI (does not need to be in the EHR)
- Practice hip, shoulder, knee, or back/spine PE
- **Direct observation of obtaining chief complaint and history of present illness, WITH feedback**

2. GETTING GOING: When how and whom should I see?

- Work with MA/designee to obtain accurate vital signs
- Work with preceptor to select patients to be directly observed doing a CC, HPI

3. QUESTIONS:

- “When is a good time to ask questions that come up?”
