2021 COM Medical Student Summer Research Virtual Kick-Off
May 7th, 12:00-2:00 pm
AGENDA

12:00 pm Welcome & Congratulations!
  • Physician Training
  • Research Safety
  • IRB, IACUC, & Research Compliance
  Ginny L. Bumgardner, MD, PhD
  Associate Dean, Research Education

Scholarship Expectations

12:20 pm Review Award Packet & Award Requirements:
  • Scholarship Funding Information & FAQs
  • Project Documentation
  • Remote Learning Modules
  • Mentor/Mentee eSurvey Check Point Survey and Evaluation
  • Guidelines for Scholarship Acknowledgement in Publications, Presentations, and
  • Preparing for 2021 Medical Student Research Symposium
  Bianca McArrell
  MDSR Program Manager

12:45 pm The Landacre Research Honor Society
  David Bushart

12:50 pm American Physician Scientists Association (APSA)
  Akila Venkataramany

MDSRS Breakout Session

1:00 pm Research Compliance
  How to Navigate Bumps in the Road
  Maximizing the Mentor/Mentee Relationship
  Research Resources
  1 year Research LOA Funding Opportunities
  Research Hypothesis Development
  Advanced Competency in Research

1:40 pm Report out from small groups and closing remarks.

MDSRS Breakout Session

• Please refer to your email to find your breakout groups question.

• Select a representative to type up your responses and one to report out when we return from the breakout session.

• Find your assigned groups question number and type your response in the space provided.

Goals of the Medical Student Summer Research Kick-Off:

- Students will be able to identify COM research scholarship requirements for the MDSR research scholarship.
- Students will understand their responsibility for awareness of university lab safety information and resources, following lab safety procedures and following proper procedures for clinical research requiring IHIS access.
- Students will identify and implement practical strategies for a successful summer research experience.
- Students will be aware of resources to address questions/issues arising during the research experience.
- Students will learn about the opportunity and requirements to pursue an Advanced Competency in Research in LSI Pt. III and how to apply.
- Students will learn about funding opportunities to support 1 year Research Leave of Absence (LOA).
- Students will learn how to identify their affiliation with the OSU College of Medicine and acknowledge the COM Research Scholarship funding source supporting their summer research experience.
