

A COVID-19 Prayer
By Bishop Ernest S. Lyght

God of faith and science, we turn to you in the midst of the COVID-19 pandemic, because we trust you. We trust you because you listen to our prayers. We trust you because you act in our lives and our history for our welfare. We trust you because we know you as a God of revelation in faith and science.

God of knowledge and wisdom, we ask that you would dwell with all the scientists who are working daily to develop an effective and safe vaccine to combat this virus. Help them to collate current knowledge and be conduits of new knowledge regarding the secrets of the COVID-19 virus. Grant them the wisdom to unlock the keys that will provide helpful COVID-19 therapies and vaccines.

God of curiosity and wonder, grant the scientists the inquisitiveness of George Washington Carver who combined his love of God and his love of science in his quest to unlock hidden agricultural secrets. As the God of the sweet potato, the peanut and the soybean, you enabled Carver to discover their secrets as he united faith and science, wisdom and knowledge, curiosity and wonder.

God of all creation, in this Eastertide we pray for all coronavirus patients, their doctors and their nurses. We ask that you be a fence around all healthcare workers, first responders, and their families. Expand our faith and buoy our hope as we shelter in place. Lord, teach us how to wait, for you are an on-time God!

Amen
