ANATOMY GRADUATE STUDENT RESEARCH FUND
Instructions for application

WHO is eligible?
Any currently enrolled Anatomy graduate student who has an established hypothesis-driven research project is eligible to apply. Priority will be given to PhD students who have successfully defended their research proposal (i.e., candidacy exam).

HOW to apply?
Submit all materials electronically to the Graduate Studies Committee Chair, Dr. McHugh (Kirk.McHugh@osumc.edu). Applications can be submitted at any time and will be reviewed on a rolling and case-by-case basis.

Your application must include:
1. Summary of proposed work including background, methods, expected results, and significance
   a. Written candidacy exam proposals will be accepted
2. Detailed budget and budget justification (i.e., WHY you need to purchase proposed things)
   a. If any other sources of funding are being sought or secured, full disclosure of all relevant information should be included with the budget
3. Comprehensive curriculum vitae
4. Short essay (no more than 1 page) describing how supplemental funds from the Division will impact your successful completion of the project and contribute to your professional growth

Decisions will be made based on the following criteria:
- Scientific merit of the research project
- Students seniority, previous accomplishments and future goals
- Priority will be given to those students who have not received an award previously
- Award amounts will be determined by the Division and Graduate Studies Committee Chairs and will be highly dependent on available budget at the time of the conference.
