Graduate School News
OSU TEC Lab

TEC Lab provides an opportunity for STEMM graduate students (and postdocs) to explore a career in technology entrepreneurship before taking the plunge. Training in communication skills and business principles help prepare students for a range of careers. TEC Lab participants will learn and practice how to communicate the value of their research and their value as researchers to business-focused and non-academic audiences.

For more information, see the attached flyer.

Action Required: Responsible Conduct of Research Training

As noted in the Provost’s recent email communication, OSU is now requiring that all faculty, staff and students eligible to conduct research at the university be trained in the Responsible Conduct of Research (RCR). As a "research eligible" individual, you are required to complete the RCR training by the end of the academic year in June 2018. The course is available online through the Collaborative Institutional Training Institute (CITI). Please note that this requirement is in addition to any other RCR training that you may have taken to date.

Many of you are already skilled in these areas and can demonstrate that competency by proceeding directly to the testing component of the module. For more information about the training, please see the RCR FAQs.

Access the CITI RCR Course

I-Corps@Ohio Grant Opportunity

Deadline: January 18th

I-Corps@Ohio is a grant program to help faculty, staff, postdocs, and graduate students launch startup companies. Grants are $15k and provide funding to participate in the seven-week summer program.

For more information, click here.

Contact: Nikki Modlich, Program Manager

Attention Students: Updated Current Lab Rotation Sheet

Please see the updated & attached spreadsheet for a list of the 34 faculty members looking for first year graduate students to rotate in their labs.

Course Offerings

*Research Methods/Research Design Course

BSGP 8800.04 "Cancer Biology and Therapeutics"
Lecture Section 0010 (35878)
The class meets every Tuesday from 2-4pm, with the first day being January 30th and going through May 1st.

Important Deadlines and Dates

Graduation Deadlines Calendar

The Graduate School recently created a calendar regarding current and future deadlines for graduation. That calendar can be found here. You may also find graduation deadlines outlined in this user-friendly document.

The Graduate School also cleaned up the Final Semester Procedures page which can be found here.

We hope you find this information useful!
Fellowships

Presidential Management Fellowship

The Presidential Management Fellows (PMF) Program is administered by the U.S. Office of Personnel Management (OPM). Each year, candidates apply to the program in efforts to be selected as Finalists. Finalists are then eligible for appointment as Presidential Management Fellows (Fellows; PMFs).

To become a PMF, you must participate in a rigorous, multi-hurdle process. It takes patience and endurance, but also gives you a chance to demonstrate your leadership ability and potential. As a PMF, you will have earned your place in the program, and the opportunity to grow professionally, serve your country, and make a difference!

The very first step in successfully becoming a PMF is paying attention to the details of the annual application and assessment process. For detailed eligibility requirements, check out the Eligibility webpage. Once the application period opens, it will appear on USAJOBS (www.usajobs.gov). The application is typically open for two weeks and closes at 11:59 PM (Eastern Standard Time) on the last day. Review the Application Process to learn about all the steps to apply.

Post-Doc Opportunities

*Post-Doctoral Position- Vascular Biochemistry

Title: Postdoctoral Researcher
Contact Email: Lianwang.guo@osumc.edu

For more information, including the job description, please see the attached flyer.

*NCI Graduate Student Recruiting Program

The attached handout has information regarding post-doctoral fellowships within the NCI. In addition, a recruiting event is being held May 2-3.

PRISM - Stanford Postdoc Recruitment Event

March 14-17th; Applications due Jan 15
PRISM (Postdoctoral Recruitment Initiative at in Sciences and Medicine) is an opportunity for select late-stage graduate students from diverse backgrounds to come to Stanford for a recruitment weekend, interview with potential mentors, and get the inside scoop on postdoctoral training at Stanford. The purpose of this program is to encourage those who might not currently consider a postdoctoral position at Stanford to get a first-hand look at whether Stanford might be a good fit for them. Our goal is to match excellent trainees to excellent mentors at Stanford.

For more information, or to apply, click here.

Other News and Events

*HN/OSUN Seminar Series- Dr. J. Mark Brown

Selective Targeting of Gut Microbial Enzymology for the Treatment of Obesity and Insulin Resistance
January 19, 2018 | 11:30-12:20 PM
Campbell Hall, 252

Please see the attached flyer for more information.

*L'Oréal USA For Women in Science
The L'Oreal USA For Women in Science Fellowship Program awards five women postdoctoral scientists with grants of $60,000 each for their contributions in Science, Technology, Engineering and Math (STEM) fields and commitment to serving as role models for younger generations. The program is the U.S. component of the L'Oreal-UNESCO For Women in Science International Fellowships program.

For more information, see the attached flyer.

Register for the Community Engagement Conference

This January 24-25, The Ohio State University will host the inaugural Community Engagement Conference. Featuring keynote speaker, former Secretary of Health and Human Services, Dr. Donna Shalala, the conference will bring together faculty, staff, students and community members around a common theme: "Partnering to Advance Health and Wellness."

Click here for more information on registering.
