Postdoctoral Fellow Position with Dr. Sheltzer at Cold Spring Harbor Laboratory

Dr. Jason Sheltzer, a PI at Cold Spring Harbor Laboratory, is currently recruiting postdoctoral fellows to study the genetics of cancer development and novel anti-cancer drug strategies. Learn more here.

Questions about the position can be directed to Dr. Sheltzer. Interested candidates can apply via the CSHL careers website, position number 02279-R.

Grants Coordinator position at Cold Spring Harbor Laboratory

Cold Spring Harbor Laboratory Office of Sponsored Programs is looking for a Grants Coordinator to assist with grant proposals and applications.

It is a great opportunity for someone looking to transition into a non-traditional career path within academia and this position would allow the right candidate to learn and grow very quickly.

Other News and Events

*Graduate School and CCTS Summer Research Scholarship

The OSU Center for Clinical and Translational Science is now accepting applications for its OSU Graduate School and CCTS Summer Research Scholarship

The Summer Scholarship will enable a health science related professional student who is enrolled in a PhD or master’s degree program to conduct a clinical or translational research project during the summer semester.

Benefits include a summer stipend, recognition of student and student work by OSU Graduate School & CCTS, access to CCTS training programs, such as TL1 Lunch and learn, Project Management training, poster at CCTS annual meeting, membership in the CCTS with access to the CCTS newsletter and community of researchers, and more.

The full application deadline is March 8, 2019, midnight.

2019 International Conference on Intelligent Biology and Medicine (ICIBM 2019)

It is our great pleasure to announce the 7th International Conference on Intelligent Biology and Medicine (ICIBM 2019), which will take place in Columbus, OH, USA in Jun 9-11, 2019, http://icibm2019.org/. ICIBM is a high caliber conference which brings together eminent scholars with expertise in various fields of computational biology, systems biology, computational medicine, as well as experimentalists interested in application of computational methods in biomedical studies. The purpose of the ICIBM is to provide a
congenial atmosphere highly conducive to extensive discussion and networking.

Paper Submission and Publication:
Prospective authors are invited to submit unpublished work to ICIBM 2019. All submitted papers will be peer-reviewed. Acceptance to special issues will be based on review scores and topics. Publication will also depend on the final approval of editorial office and requires ICIBM registration. The accepted papers of registered authors will be published in special issues of several journals, including Genes, BMC Genomics, BMC Systems Biology, BMC Bioinformatics, BMC Medical Genomics, BMC Medical Informatics and Decision Making, and International Journal of Computational Biology and Drug Design (IJCBDD). Participants have two tracks for paper submissions:

Track 1
All papers prepared for BMC Genomics, BMC Systems Biology, BMC Bioinformatics, BMC Medical Genomics, BMC Medical Informatics and Decision Making, and IJCBDD will be submitted through EasyChair Conference System. Please contact Dr. Xia Ning for any questions regarding the submission of track 1.

Track 2
Papers can be directly submitted to the journal Genes. Reviews will be handled exclusively by the journal editors and will not be reviewed by the ICIBM 2019 review committee. Papers for special issue Genes should be directly submitted through https://sciforum.net/conference/ICIBM2019 and notify us upon your submission. Please contact Dr. Yan Guo for any questions regarding the submission of track 2.

Travel Awards
The conference typically provides 20 travel awards to students/postdocs; awards will be granted through an NSF grant application.

Important Days
Deadline for paper submission: February 16, 2019
Notification to authors of papers: March 23, 2019
Deadline for abstract submission: March 30, 2019
Notification to authors of abstracts: April 4, 2019
Deadline for travel award application: May 1, 2019
Conference early registration deadline: May 8, 2019
Conference regular registration: May 9 – June 8, 2019

Preparing Future Faculty

Deadline to apply is April 1st
The Preparing Future Faculty program is a mentorship and career development program that helps graduate students from any discipline discern whether they are interested in pursuing faculty careers in liberal arts colleges or small universities.

The premier feature of the program is an arranged mentorship between PFF fellows and faculty teaching in the Graduate School’s partner colleges and universities in Ohio.

Participants also engage in a series of professional and career development workshops and other events developed for the program.

The program is best suited to graduate students who are one to two years away from conducting an academic job search.
