*New or Updated Items Marked With Asterisk
*2018 Pathology Graduate Student of the Year Award!

Congratulations Juan Barajas on receiving the 2018 Pathology Graduate Student of the Year Award!

This very competitive award is bestowed upon an exceptional PhD student conducting her/his dissertation research under the mentoring of a Pathology faculty member. The award is based upon academic achievement, as indicated by GPA, scholarly accomplishment (publications, abstracts, presentations), grants and other awards, TA service, but also community service and citizenship.

Meeting with Distinguished Speaker Julie Pfeiffer (IDI)

Dr. Julie Pfeiffer, Professor from University of Texas Southwestern Medical Center, will be visiting the OSU campus October 1st-3rd as the distinguished speaker for our Annual Meeting on October 2nd (9am-3pm). Her work focuses on enteric virus pathogens, virus evolution, and the effects of intestinal bacteria on virus replication and transmission.

Please let us know if you would like to meet during the following dates/times:

1. October 3rd for breakfast (8am-9am)
2. October 3rd in the morning (9:30am-12:30pm)

We will let you know if there are other times she becomes available to meet with IDI members.

We will do our best to accommodate your request. IDI@osu.edu

*Lindsay Webb Dissertation Defense

Thursday October 4th, 2018 | 10 AM
IBMR Room 109

We are pleased to announce that Lindsay Webb will be defending her dissertation, “Arginine methylation drives inflammatory Th cell responses and autoimmunity”. Please see her booklet for details regarding the public defense.

Hacking the Academic Job Market

October 4, 2018 | 9 AM - 4:30 PM
Cartoon Rooms, 3rd floor of the Ohio Union
The Office of Postdoctoral Affairs in collaboration with representatives from The Professor Is In and the Ohio Union Activities Board (OUAB) will be presenting a full-day workshop in two parts: the first on the job market, the second on academic writing productivity. This is tailored for individuals who are interested in applying for faculty positions.

If you are interested in attending, please register [here](#). If you are no longer able to attend, the deadline to notify them is September 26, 2018.

---

**2018 Clotilde Dent Bowen, MD Lunch and Lecture**

"Seeking Excellence: Building on the Past while Ensuring the Future"

Featuring Joan Y. Reede, MD, MS, MPH, MBA, Dean for Diversity and Community Partnership at Harvard Medical School

**Friday, October 5th | 12 p.m. to 1:30 p.m.**
**James Conference Center L035**

Join us for a free lunch and a lecture during reunion weekend featuring the 2018 Clotilde Dent Bowen, MD Visiting Professor for Inclusive Excellence

Registration is required to attend. [Register Today](#)

---

**The Women in Bioscience & Healthcare Conference**

BioOhio is hosting a full-day conference **October 18th**, in partnership with the Columbus chapter of the Healthcare Businesswomen’s Association (HBA). The event includes a continental breakfast, lunch, and a networking reception.

This event is open to men and women alike, featuring speakers covering topics that include career paths, mentoring, networking, communication strategies, personal brand development, and success stories.

BioOhio’s goal in holding these events is to highlight numerous bioscience career options, for scientific and non-scientific jobs, along with practical concepts to advance women in the bioscience industry.

Ohio State is a BioOhio member which provides discounted registration. For more information please click [here](#).

---

**Rachael Hardison Dissertation Defense**

**Wednesday October 24th, 2018 | 9 AM**
**James Conference Center L035**

We are pleased to announce that Rachael Hardison will be defending her dissertation, "*Haemophilus* pathogenesis during otitis media: Influence of nutritional immunity on
Annual Flu Shot Compliance

All faculty and staff must comply with the seasonal flu vaccine policy each year by Saturday, Dec. 1. Compliance with the seasonal flu policy is nondiscretionary and applies to faculty, staff and paid students of The Ohio State Wexner Medical Center, including The Ohio State University Comprehensive Cancer Center - Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the College of Medicine and Health Sciences.

Flu vaccinations will be available starting Thursday, Sept. 20 through Thursday, Nov. 27. Read more information about dates/locations/times.

As a faculty or staff member, you have the following flu vaccine options:

- Get vaccinated at an Ohio State Wexner Medical Center flu shot blitz, by your unit’s ambassador or at University Health Services (201 McCampbell) during regular business hours. This is the easiest and quickest way to become compliant because no documentation is required.
- Get vaccinated with your provider or at another location. Even if you have an Ohio State provider, you must take the Influenza Vaccination Documentation/Exemption Form for your provider to complete and return it by Thursday, Nov. 15. In addition to the form, you must also provide your receipt as proof of vaccination.
- Claim a medical or other exemption. Complete and return the Influenza Vaccination Documentation/Exemption Form and this year’s influenza CBL by Saturday, Dec. 1 to be in compliance. See step-by-step instructions for being in compliance when you claim medical exemption or other exemption.

Once you have completed your annual requirements, please make sure to check your compliance status online by logging onto your Employee Compliance site. Noncompliance beyond the deadline will result in corrective action and loss of computer access.

Professional School Orchestra

The professional school orchestra is gearing up for its 2018-2019 season. We are now in the process of recruiting players. Anyone enrolled in a graduate or professional program is eligible to play, regardless of experience level (as long as you play an instrument).
We are a full orchestra, meaning we have parts for brass, woodwinds, strings, and percussion (and occasionally piano).

Rehearsals will occur weekly on **Tuesdays from 6-7:30 in Meiling 160**. Concert dates are still being planned, but will likely be in early to mid-December (one evening and one noon concert). If you have a friend enrolled in another graduate or professional program (Pharmacy, Dentistry, Vet med, Optometry, Law, etc.) that plays an instrument, we would appreciate you reaching out to them and letting them know of this opportunity.

So that we are better able to plan for the first rehearsal, please fill out this [google spreadsheet](#) so we have an idea of the instrumentation and personnel for this coming season.

---

### OSUN Seminar Series for Fall Semester

The OSU Nutrition Seminar series calendar is now up on the [OSUN website](#) and also [attached](#).

The seminar is held in **252 Campbell Hall on Fridays at 11:45**.

---

### BSGP Authorship Guidelines

Publication guidelines for OSU ([attached here](#)) cover whether an individual should be included as an author for a manuscript. The BSGP graduate faculty recently adopted general guidelines about authorship; these [guidelines](#) are intended to be general and may not cover every specific situation. These guidelines are included in the [BSGP Handbook](#) as Appendix R.

---

### Course Offerings

**Translational NeuroImmunology Seminar/HTHRHSC 7595**

1 credit hour (can repeat up to 4 credit hours)

Thursdays 11 am-12 pm | IBMR 109

Instructor: [Mireia Guerau](mailto:gueraulaboratory.com)

**Course description:** This seminar course is designed for graduate level students involved in basic or translational research in Immunology and/or Neuroscience. Students develop skills in teaching, analyzing, discussing, synthesizing and presenting immunology and neuroscience research. Students develop a classic and a contemporary (3-minute thesis) research presentation and critically appraise peer research, including a few national level speaker presentations. Successful students are able to:

1. Understand complex Immunology or Neuroscience concepts for interpretation of Translational NeuroImmunology research.
2. Demonstrate understanding of Immunological or Neuroscience concepts
3. Apply research concepts or ideas to their field/research question
4. Analyze and break down the objectives and essential elements for successful delivery of various research presentation formats, such as keynote and 3-minute thesis.
5. Create and peer-evaluate research presentations of various formats.

**Specific Topics Autumn 2018:** Plans for this semester are focused on the impact of immune (such as T cells or myeloid cells) and neurological (such as microglia or astrocytes) and environmental (such as microbiota or stress) systems on disease. Disease models may include animal models of Multiple Sclerosis, cancer and behavior.

**Grading:** Satisfactory/Unsatisfactory based on attendance, developing a full and a 3-minute thesis research presentation and peer-review of presentations.

---

**Advanced Skeletal Biology: Clinical Perspectives/HTHRHSC 8891**

3 credit hours
Mondays 1-4pm
For more information contact course instructors: **Randee Hunter, PhD Amanda Agnew, PhD**

The course will examine research-based multidisciplinary concepts with an emphasis on application to students’ clinical areas of interest. Graduate students from all disciplines are welcome, including (but not limited to): Health & Rehabilitation Sciences, Biomedical Engineering, and Anthropology

---

**NEURSGY 8250 Course Offering**

Biology of the Tumor Microenvironment (NEURSGY 8250) graduate course will be offered fall semester and is open to BSGP students. Topics include stem cells, angiogenesis, EMT, metastasis, and tumor immunity. Please see the attached course flyer for more information.

---

**Fellowships**

**Fannie & John Hertz Foundation Fellowship**

Provides unique financial and fellowship support to the nation’s most remarkable PhD students in the applied physical and biological sciences, mathematics, and engineering. Hertz Fellows become innovators and leaders serving in ways that benefit us all.

Deadline to submit application: October 24, 2018
References due by: October 26, 2018

See the attached flyer for more information
Please contact the University Representative **Dr. Heather Allen** with any questions.
Phi Kappa Phi Fellowship

Deadline November 30 (opens October 1)

The Honor Society of Phi Kappa Phi annually awards ten Dissertation Fellowships of $10,000 each to active members who are doctoral candidates and are completing dissertations.

Learn More Here

T32 Congenital & Acquired Heart Disease Fellowship Program

A postdoctoral fellow position is available for the T32 Fellowship Program entitled, "Training in Congenital and Acquired Heart Disease." The program is jointly hosted by the Research Institute at Nationwide Children's Hospital and the Dorothy M. Davis Heart and Lung Research Institute at The Ohio State University (PIs: Dr. Vidu Garg and Dr. Peter Mohler).

See the attached flyer for more information

Ford Foundation Fellowship Programs

The National Academies of Sciences, Engineering, and Medicine is accepting applications for the 2019 Ford Foundation Fellowship Programs. Eligibility and online application information are available on the Ford Foundation Fellowship Programs website.

Through its Fellowship Programs, the Ford Foundation seeks to increase the diversity of the nation's college and university faculties by increasing their ethnic and racial diversity, to maximize the educational benefits of diversity, and to increase the number of professors who can and will use diversity as a resource for enriching the education of all students.

Eligibility Requirements:

U. S. citizens, U.S. nationals, U.S. permanent residents (holders of a Permanent Resident Card), as well as individuals granted deferred action status under the Deferred Action for Childhood Arrivals Program (DACA) program¹, political asylees, and refugees, regardless of race, national origin, religion, gender, age, disability, or sexual orientation

Individuals with evidence of superior academic achievement (such as grade point average, class rank, honors or other designations), and

Individuals committed to a career in teaching and research at the college or university level in a research-based field of science, social science, or humanities

¹Eligibility includes individuals with current status under the DACA Program, as well as individuals whose status may have lapsed but who continue to meet all the USCIS guidelines for DACA available here.

Stipends:

- Predoctoral--$24,000 per year for three years
- Dissertation--$25,000 for one year
- Postdoctoral--$45,000 for one year
Awardees will have expenses paid to attend at least one Conference of Ford Fellows. Approximately 70 predoctoral, 36 dissertation, and 24 postdoctoral fellowships will be awarded.

**Application Deadline Dates:**
- Predoctoral: December 13, 2018 (5:00 PM EST)
- Dissertation: December 6, 2018 (5:00 PM EST)
- Postdoctoral: December 6, 2018 (5:00 PM EST)

Supplementary Materials receipt deadline for submitted applications is January 8, 2019 (5:00 PM EST)

---

**American Society of Human Genetics Fellowship Opportunities**

**Genetics Education & Engagement Fellowship**
This fellowship program is designed for genetics professionals (or life scientists with substantial experience in genetics or genomics) who: have an advanced degree, are early in their careers, and are interested in developing and implementing genetic and genomic literacy, engagement, diversity, and/or professional development initiatives for audiences comprising K-12, undergraduate, graduate, post-graduate, and professional. The fellow will participate in rotations at the NHGRI and ASHG, and typically a third organization involved in genetic and genomic literacy, engagement, diversity, or professional development.

**Genetics & Public Policy Fellowship**
This is a fellowship program designed for genetics professionals with an advanced degree who are early in their careers and interested in the development and implementation of genetics-related health and research policies at a national level. The fellow will have the opportunity to participate in policy analysis at NHGRI and ASHG, and to work directly within the U.S. Congress.

---

**Post-Doc Opportunities**

**Postdoctoral Research Fellowship for Academic Diversity at CHOP**

CHOP is seeking late stage graduate students or early stage postdoctoral fellows to apply for this fellowship. Please see the attached program description for eligibility requirements.

Successful applicants will be funded by The Children’s Hospital of Philadelphia Research Institute and supported by The CHOP Office of Postdoctoral Affairs. Support will include salary (starting at $50,000 for new postdoctoral fellows with no previous postdoctoral experience, increasing in $2,000 increments annually) and benefits, and provides an annual allowance for travel ($2,000) and supplies ($5,000), and a one-time relocation allowance for external candidates (up to $5,000). Support will be provided for up to three years and participants will be able to take part in all Penn-sponsored programming as well as CHOP-specific programming organized by the CHOP Office of Postdoctoral Affairs.
To be eligible for the CHOP fellowship a CHOP-based research mentor will need to be selected for the postdoctoral lab. External candidates may use the Investigator Directory to search for faculty based on area of study [http://www.research.chop.edu/people/keyword](http://www.research.chop.edu/people/keyword).

**Completed applications are due November 2, 2018.**

For more information and to apply please visit: [http://training.research.chop.edu/prospective-trainees/685-diversity-postdoctoral-fellowships.html](http://training.research.chop.edu/prospective-trainees/685-diversity-postdoctoral-fellowships.html)

Please contact Paulette McRae, Ph.D. with any questions you may have.

---

**Postdoc Positions in OSU's Dept of Cancer Biology and Genetics**

Dr. Wang is looking for postdoc students to join her lab. Since her lab website has not been posted yet, her faculty profile has been [attached](http://training.research.chop.edu/prospective-trainees/685-diversity-postdoctoral-fellowships.html). Please contact Dr. Wang if you are interested.

---

**Two Post-Doctoral Research Scholar Positions in Bioinformatics**

A Statistical Bioinformatics Lab ([http://www.healthcare.uiowa.edu/labs/au/](http://www.healthcare.uiowa.edu/labs/au/)) relocated to the Department of Biomedical Informatics at Ohio State University this August and we are seeking candidates for two postdoctoral research scholar positions and graduate research assistants to work on the following areas of genomics and sequencing data analysis:

1) **Bioinformatics method development**: We are looking for a postdoctoral scholar or graduate research assistant to develop statistical and computational/algorithimic methods for high-throughput sequencing data analyses, such as transcriptome, epigenetics and genome. Background on mathematics, statistics, computer science or degree in a related field is desirable.

2) **Computational biology**: We are looking for a postdoctoral scholar or graduate research assistant in biology background. Our lab performs world leading science in development process and cancer research. Our team focuses on making meaningful advances to understand development process and cancer, using cutting edge technologies (Third Generation Sequencing technologies, such as PacBio and Oxford Nanopore Technologies) to create authentic models and gain novel biological insights in transcriptome and epigenetics level. A typical candidate would have skills in including but not limited to implementing basic in-house bioinformatics tools, collaborating with statistician and computational biologists to elucidate biological discovery and mining out biological insights. Background in biology, computational biology or bioinformatics is desirable.
The postdoctoral research scholars and graduate research assistants will have the opportunity to collaborate with internationally recognized biomedical scientists at Stanford University and University of Oxford.

Interested candidates are very welcomed to meet Prof. Kin Fai Au at Lincoln Tower to learn more about the science and research that the Statistical Bioinformatics Laboratory is working on. Please email Prof. Kin Fai Au at KinFai.Au@osumc.edu to set up an appointment.

---

**Position Opening- Scientist I at the Center for Immunology**

Please see the attached [link](#) for more information regarding an opening at the Dana-Farber Cancer Institute in Boston, MA.

---

**Post-Doctoral Associate- Moscat Lab**

On the role of inflammation and metabolism in colorectal and liver cancer initiation and progression

One fully funded postdoctoral position is available in the laboratory of Jorge Moscat to study signaling and metabolic pathways in tumorigenesis and the role of the stroma and the tumor microenvironment. The project is based on our recent publications in Cell (2013, 2016), Cancer Cell (2014, 2016, 2017, 2018) Cell Reports (2015, 2016), and Cell Metabolism (2014, 2017), and will use mouse models and cell based studies and the interrogation of human cancer samples.

Requirements: We are looking for highly motivated and enthusiastic individuals who are interested in this very competitive topic, and with expertise in this area and with experience in mouse models. Candidates must have a Ph.D. or M.D. degree. Interested applicants should submit a single PDF file containing CV, a brief description of research accomplishments, interests, and career goals, and contact information (e-mail address and phone number) of three references to Dr. Jorge Moscat (CC: Ms. Sarah Forte)

The position is available starting immediately, and offers a very competitive health and retirement package.

---

**Postdoc Fellow Position | NIH/NIA-Intramural Research Program**

Please see the attached [flyer](#) for more information about this opportunity.

---

**Post Doctoral Scientist - Cardiovascular Research**

Please see the [webpage](#) for more information regarding a job opening at Nationwide Children’s Hospital.
Post-Doctoral position - Cancer Metabolism, OSUCCC

Position Description:
We are seeking an enthusiastic and motivated postdoctoral fellow to join the
group of Dr Ioanna Papandreou, in the department of Radiation Oncology at
the OSUCCC. We use genetically engineered mouse models of solid tumors
and in vitro approaches to understand hypoxic tumor physiology, particularly
lipid storage mechanisms, and to delineate the mechanisms by which these
metabolic adaptations impact malignant progression. The ideal candidate will
have a strong background in biochemistry or cell biology and a publication
record in peer-reviewed journals. Experience in confocal microscopy, animal
handling or metabolic assays is desirable.

Contact:
Interested applicants should submit their current curriculum vitae and the
names and contact information of two references
to Ioanna.Papandreou@osumc.edu. Please indicate postdoc application in
the title of the email

Postdoctoral Opportunity at Yale University

Please see the attachment for more information regarding this position.

Dr. Inan Olmez Lab Opportunities

Dr. Olmez is a new faculty member in the division of Neuro-Oncology at OSU.
He is looking for 2 post-doc researchers to work on neural stem cell and brain
tumor related projects. Anyone with background in cancer biology or
neuroscience is welcomed. Prior experience in cellular reprogramming,
proteomics, or immune staining will be favorable.

If you have any interest, please contact Dr. Olmez for more information

Current Postdoctoral Openings at Cincinnati Children’s Hospital

Please see the attached flyer for more information regarding Cincinnati Children's
Hospital Medical Center and their current position openings.

Assistant Professor Position Opening

The Department of Biology at Bryn Mawr College invites applications for a full-
time, tenure-track Assistant Professor position in the area of Immunology to
begin August 1, 2019. We are searching for a broadly trained individual whose
immunological expertise will support programs in Biology, Biochemistry &
Molecular Biology and Health Studies. The successful candidate will thrive in an
environment that combines teaching, research and interdisciplinary
collaboration, establishing an externally funded research program that includes
involvement of undergraduate students of diverse backgrounds. Teaching
Responsibilities will include courses in immunology and in the candidate's area of expertise, participation in the team-taught introductory biology sequence, and regular contributions to the Health Studies minor. Candidates who have the potential to contribute to the Neuroscience or Environmental Studies minor and/or other College initiatives are especially encouraged to apply. A Ph.D. and at least one year of post-doctoral research experience are required by the start date.

To apply for this position, candidates must submit a cover letter, curriculum vitae, research statement and teaching philosophy that includes a short description of potential courses to be offered by October 5, 2018 to Biology Search Committee via Interfolio at: https://apply.interfolio.com/52079. In addition, arrange for three letters of recommendation to be submitted via Interfolio to the Biology Search Committee. Applications received by October 5, 2018 will receive full consideration.

Other News and Events

*Cure CF Columbus Training Grants

Cure CF Columbus is excited to announce another round of training grants.

The request for applications and required document templates can be found here. Please feel free to forward this to anyone who might have an interest.

If you have any questions, please feel free to contact Linda Humston

Training Opportunities at the NIH

Clinical and Translational Research Course for Ph.D. Students
Two-week intensive introductory course to demonstrate the role of PhD scientists in clinical and translational research, provide an overview and examples of how basic science and clinical observations lead to translational research, and increase awareness and access to Ph.D. role models, research resources, and potential career opportunities at the NIH.
https://cc.nih.gov/training/phdcourse/index.html

Postdoctoral Research Training Awards
Provides the opportunity for recent doctoral degree recipients to enhance their research skills in the resource-rich National Institutes of Health (NIH) environment, which consists of more than 1200 laboratories/research projects.
https://www.training.nih.gov/programs/postdoc_irp

Graduate Partnerships Program
This program is designed to bring PhD graduate students to the NIH Intramural Research Program for dissertation research.
https://www.training.nih.gov/programs/gpp

Core Curriculum in Clinical Research
Free courses offered include: Introduction to the Principles and Practice of Clinical Research (IPPCR); Principles of Clinical Pharmacology (PCP); and Ethical and Regulatory Aspects of Clinical Research. These courses are offered as distance learning courses.
NIH Opportunity for Aspiring Biomedical Researchers

The National Institute of Allergy and Infectious Diseases (NIAID), one of the largest Institutes at the National Institutes of Health (NIH), is looking for science students with a passion to advance global health research in the 21st century for its Intramural NIAID Research Opportunities (INRO) program, held February 4-7, 2019, in Bethesda, Maryland. Selected INRO students visit NIAID to learn about the breadth of research we do in the areas of allergy, immunology, and infectious diseases from world-renowned scientists and interview for potential research training positions.

Find out more about INRO

TEC Lab Application

TEC Lab is a FREE professional development workshop series aimed at STEMM grad students and post-docs. Please see the attached flyer for more information including the application.

Graduate Student Workshop Series
