Pay Forward, Give Back...

Educating Learners and Leaders:

The virtual eye hospital encompasses both surgical simulators and wet lab stations which are instrumental in medical education. This new technology is a crucial piece of our recruitment efforts to attract the best and brightest trainees, fellows, and faculty from across the country. It allows our learners to become familiar with the principles behind the procedures they will perform and perfect their skills in a risk-free environment to provide exemplary patient care.

YOUR VOTE MATTERS

U.S. News annually releases their list of “Best Hospitals” by department and ophthalmology is one of the few that is based solely on reputation instead of clinical care data. This means that votes alone determine our position, and as few as 10 votes can dramatically improve our rank.

We know that our Department of Ophthalmology & Visual Sciences is among the best in the nation and we’re asking for your help to share this knowledge. Reputation matters for our learners, patients, recruitment, research, and donors.

1

Visit www.doximity.com to create your profile. Complete the stages of verification to finalize your registration.

2

If you have a Doximity profile, then **you will receive an email survey link in Spring** to nominate up to five U.S. News “Best Hospitals” in your specialty.

3

Please consider selecting **The Ohio State University Wexner Medical Center Department of Ophthalmology and Visual Sciences** as one of your choices.
