Meeting called to order at 07.30.

Minutes of February meeting were approved.

1) Alan summarized Dr. Retchin’s College Assembly appearance. Several questions arose from statements made that may need follow up when Dr. Retchin comes to council (tentatively in May). These include statements on structural nuances, distracting elements, discipline of command and control, and views on responsible center management.

2) Dr. Pete Geier updated the council on health system operational finances. Interesting things were to find out the extremely low interest rate on cash at hand. Presentation was well received, and a likewise transparent presentation of COM finances is desired for a future FC meeting.

3) Election of Faculty Council Officials. Will be announced in April meeting, nominations by May meeting, Voting will be at June Meeting, Start of term at July meeting.

Meeting adjourned at 8.46 AM.
