- Serves as a one-stop resource for students’ **global health** needs
- Creates relationships with institutions **around the world** that offer unique learning opportunities
- Provides funding for medical student **Global Health Elective** program
- Supports **student** global health organizations
Vision
Inspire future physicians to become champions for global health, and for improving the quality of life for all.

Prepare future physicians for practice in a diverse world.

Foster a spirit of service, cultural appreciation, and global partnership that will lessen the burden of disease worldwide, particularly among those most vulnerable.
• Our focus is on global health issues in the **developing world**.
• We use the **World Bank’s economic classifications** to define a developing country.
Global Health Electives are available to fourth-year OSU medical students. Students complete an application for a stipend up to ($2,500) and to receive elective credit. Each student submits a detailed report of their experience.
Application and the application process are on our website
