Title: Technologic Support of Graduate Medical Education

Prepared By: Director, Graduate Medical Education
Graduate Medical Education Committee

Effective: 11/15/2000

Authorized by: Hagop S. Mekhjian, M.D.
Chair, Graduate Medical Education Committee

Policy

It is the policy of The Ohio State University Medical Center that the Designated Institutional Official, Director of Graduate Medical Education, administrators of Graduate Medical Education, Program Directors, faculty and residents must have access to adequate communications technologies and technological support.

This is to include, and is not limited to:

- computers
- access to electronic mail technology
- access to the hospital intranet system
- access to the hospital-wide Computer Accessed Patient Information system
- access to the hospital-wide Computer Order Entry system
- access to the Internet and searchable databases
