Eligible MAP participants have the option to petition for entry into the College of Medicine after three years of undergraduate course work. To be eligible, the student must be meeting the academic and program requirements as outlined as part of the conditional acceptance. If conditionally approved, the student earns the bachelor's degree in absentia after successful completion of the first year of medical school.

This form must be submitted, with GEC and major advisor signatures, for approval to the College of Medicine by June 15 at the end of the second MAP year.
